Greetings and welcome to the August edition of the Office of Tribal Government Relations (OTGR) newsletter. As students head back to school, vacations wind down and the world settles back into the daily routine, we reflect on August not as a calendar moment where the minutes drift by so slowly that it’s as though time has stood still, but instead, we marvel at the flurry of activity and transformation that is upon all of us here at VA. It has been a memorable month busy and filled with several milestones and important events. We are pleased to announce that the VA Office of Intergovernmental Affairs welcomed a new Deputy Assistant Secretary (DAS), Mr. David Montoya. Mr. Montoya is from New Mexico and has hit the ground running meeting with state directors and has plans to make several visits to tribal locations in the very near future. I’m sure many of you will have the chance to visit with DAS Montoya in the days ahead as he is very much a champion of the importance of establishing and maintaining positive government to government relations between the VA and tribal governments. You’ll hear more from him in our September newsletter.

Before Congress adjourned for recess we saw President Obama sign the Veterans Access, Choice and Accountability Act of 2014, PL 113-146 (VACAA). Some of the provisions of this legislation are new and complex but VA is dedicated to implementing the legislation as quickly and effectively as possible. The new law includes sections that may be of interest to tribes including specific performance metric provisions related to the VA/IHS Memorandum of Understanding, a report to Congress evaluating the feasibility of VA entering into Reimbursement Agreements with Indian Health Service, Tribal Health Programs and Urban Indian Health Programs to provide care to non-American Indian/Alaska Native Veterans and $10 billion to fund additional purchased care while VA builds the internal capability to meet current demand. The law also provides for $5 billion to hire medical staff and to make improvements to VA’s infrastructure and authorization for VA to secure leases at 27 major facilities to give VA more space for clinicians to treat patients. We look forward to VA leadership engaging in discussions and communications with tribal leaders, service providers and Veterans regarding the implications of the new law and potential effects on Indian Country’s Veterans in the days ahead.

Speaking of local impact, as we go to print VA has reimbursed IHS and Tribal Health Programs (THPs) $10 million for direct care provided to American Indian and Alaska Native Veterans. There are 60 THP agreements signed and to date 77 out of 82 IHS facilities received reimbursements from the VA for Veteran care. Tribal Health Programs and tribal leaders seeking information on how to establish a Reimbursement Agreement with the VA should email tribalagreements@va.gov. Not only do the Reimbursement Agreements provide additional fiscal resources for health care across Indian Country, they also open doors for local partnerships between VA, IHS and THPs that extend beyond reimbursement and move into the Veteran services collaborative program and service opportunities that are specified in the 2010 VA/IHS MOU. Speaking of the VA/IHS MOU, tribal consultation is currently open for comment (see Federal Register Notice Vol. 79, No. 145, July 29, 2014 for specific questions) and closes October 8, 2014. VA is seeking input on the MOU from as many tribal leaders as possible so please take this opportunity to offer your recommendations and ensure your voice is heard and considered. Feedback can be written or electronically submitted to the following email address:
In person VA Tribal Consultation with senior agency officials and tribal leaders will be held September 8, 2014 from 1:00 – 2:30 pm at the Hyatt Regency located at 330 Tijeras Ave. NW in Albuquerque, NM.

In other VA Tribal Consultation news, Dear Tribal Leader Letters (DTLL) were sent to tribes located in South Dakota, North Dakota, Montana, Wyoming, Minnesota, Nebraska and four tribes in Oklahoma focused on eliciting input on consultation topics relative to the VA Medical Center located in Hot Springs, South Dakota. To submit questions or suggestions for tribal consultation topics, please email tribalgovernmentconsultation@va.gov (same email address as the VA/IHS MOU comments) by September 12, 2014. Copies of the DTLL are available upon request. In person tribal consultation sessions will be held this fall at several locations in South Dakota. More details will be forthcoming in the days ahead.

Over in the Western Region, Terry Bentley attended the dedication of the Yurok Tribe’s Veteran Cemetery. To date, 6 tribes have been granted funding from VA for Veterans cemeteries and there are more to come in 2015. For more information about this opportunity, email George.eisenbach@va.gov. Mr. Eisenbach works for the National Cemetery Administration and can provide briefings directly with tribal leaders on how this program works and how it honors Veterans and their families.

On the Veterans Training Summit schedule and in the world of communications this past month, three trainings were held within the following tribal communities: Spirit Lake, North Dakota, Towaoc, Colorado and Durant, Oklahoma. I want to thank the tribal leadership for supporting each of these events, the tribal service providers, Veterans, VA, IHS and colleagues from other federal, state and service organization entities who came together and made each of these events a success. Sincere thanks for all the work you do supporting and serving our Veterans, those who’ve served us. Don’t forget there is one more training session coming up September 18-19, 2014 at Smith River, California. Contact Terry.Bentley@va.gov for details. Finally, last but not least, the national radio show Native America Calling placed Veterans issues in the spotlight by hosting two one hour shows that included a lot of great insights and resource information, it’s not too late to tune in, you can listen to the archived shows at www.nativeamericacalling.com.

We hope you enjoy this newsletter edition and we look forward to hearing from you in the days ahead. Happy Reading – Stephanie
Warriors Return:
Diné Veterans of Canyon de Chelly

Diné (Navajo) warriors serve in the military to defend their land since, in their view, the United States is still Indian land. They have served proudly and bravely, from the Code Talkers in WWII, to the Army Rangers in Viet Nam, to the Army and Reserves who served in Iraq and Afghanistan. But their dedication and courage in battle does not protect them when they return home. Many were afraid of losing limbs; they did not anticipate the psychological damage from Post Traumatic Stress.

Healing from PTSD is compounded for Navajo and many rural veterans by the problems of traveling long distances to receive care, unemployment, lack of housing, and alcohol abuse. Fortunately, many find help through strong women, traditional healing and western talk therapy to create a new normal.

30 minutes - Credits: Produced by Marcia Rock and Peter Williams; Director, Camera, Editing, Marcia Rock; Traditional Music by Travis Terry. WINDOW ROCK, ARIZONA — The uniform of a Navajo hero is coming home. After more than 15 years of limbo, the uniform of George H. Kirk, Sr. will be returning home and will be unveiled on August 14, during a ceremony at the Navajo Nation Museum in honor of Navajo Code Talkers Day. Kirk was a Navajo Code Talker. Born on May 25, 1917, he passed on Oct. 28, 1999. He served in the 3rd Marine Division and saw combat in Bougainville, Enewetak Atoll, Guadalcanal, Guam, Iwo Jima, Johnston Islands, Mariana Islands, Marshall Islands, New Guinea, and Solomon Islands. Kirk’s Navajo Code Talker uniform and associated items were lost since 1999, until they appeared on the open market for auction in late Jan. 2014. The uniform was previously in a storage unit that went up for auction after he passed and no longer made payments.

Navajo Nation President Ben Shelly immediately contacted Craig Gottlieb, a military historian that owned the online auction house that was prepared to sell the uniform. In his letter to Gottlieb, President Shelly stated the importance of its return to the Nation. “We respectfully asked for the return of the uniform to the Navajo Nation and agreed that it be an exhibit at the Navajo Nation Museum for display to our future generations,” President Shelly said. “Thankfully, Mr. Gottlieb was very gracious and cooperative in the matter. “Our Navajo Code Talkers not only put their lives on the line but they also preserved and showcased the strength of Dine’ bizaad, the Navajo language,” he added.

President Shelly will be traveling to Reno, Nev. on Aug. 13 to pickup Gottlieb and the uniform for its return to the Navajo Nation. The unveiling [began] on August 14, at 8 a.m. at the Navajo Nation Museum, followed by the parade from the museum to Veterans Memorial Park at 9 a.m.
After the War: Healing Native American Veterans

This article, by Traci Pedersen, originally ran on August 12 in *Spirituality & Health*, and can be located [HERE](#).

Many hospitals and treatment centers have begun offering holistic therapies for Native American veterans, many of whom are looking for a more spiritual approach to healing post traumatic stress disorder (PTSD). PTSD is a disorder in which the “fight or flight” response has been severely damaged from a traumatic experience. The sufferer continues to experience fear and stress even after the threat is gone. Many PTSD patients experience flashbacks to the original incident or suffer from terrifying thoughts and dreams. Current therapies for PTSD often include psychotherapy and medication.

Native Americans have the highest rate of military service out of all U.S. racial groups. In fact, in 2012, the Department of Veterans reported that the percentage of Native veterans (under age 65) was greater than all other groups combined.

In a new study, researchers from Washington State University have been gathering data to gain a better understanding of Native veterans’ attitudes and beliefs toward PTSD and the current treatment options. The researchers have been interviewing Native veterans from all walks of life—those who are living on reservations as well as those in the city.

Native American spirituality is intertwined: spirit, mind, and body are all one, says lead researcher Greg Urquhart. Spirituality is a vital component of healing for Native American veterans, and this is usually not an option in western medicine, he adds. According to the survey results, sixty percent of Native veterans who have tried standard PTSD therapy reported “no improvement” or were “very unsatisfied” with standard therapies. Seventy-two percent of the respondents, however, reported that spiritual or religious treatments were “successful” or “highly successful.” Animal therapy was also very popular.

According to the researchers, some of the alternative therapies offered at veterans hospitals include talking circles, vision quests, songs, drumming, stories, sweat lodge ceremonies, equine therapy, and gourd dances. Sweat lodge ceremonies, in particular, seem especially helpful for both Native and non-Native veterans as well. These huts, often dome-shaped and made of natural materials, are used as gathering places for veterans to enter and ‘cleanse’ themselves from war. Stones are typically heated and then doused with water to create steam. A Native spiritual leader conducts a ceremony that may include prayers, songs, and rituals. As more medical centers move toward holistic programs for PTSD, veterans of all races and beliefs will have the chance to heal spirit, mind, and body at once. The findings of the study will be presented at the next American Psychological Association conference.
Notice of VA Tribal Consultation ~ Black Hills Health Care System

August 18, 2014

Dear Tribal Leader:

The Department of Veterans Affairs (VA) is sending this communication to provide information regarding upcoming consultations on the Proposed Reconfiguration of the VA Black Hills Health Care System (BHHCS).

Proposal and Recent Efforts

The proposal would involve reconfiguring existing services and expanding points of access to health care within the VA Black Hills Health Care System (BHHCS) service area to better serve the health care needs and distribution of Veterans in the VA BHHCS service area over the next 20 to 30 years. That area includes portions of South Dakota, Nebraska, and Wyoming. More information is available on the BHHCS website (http://www.blackhills.va.gov/vablackhillsfuture/).

As required by the National Environmental Policy Act (NEPA), an Environmental Impact Statement (EIS) is being prepared to analyze the environmental consequences of the proposal. A series of NEPA public scoping meetings were held throughout the service area in June. The purpose of public scoping is to ensure the EIS evaluates the range of potential issues associated with the proposal. The public scoping period ended August 16.

Evaluating the potential effect(s) or impact(s) of this proposal is a comprehensive effort that involves outreach efforts, consultations, and compliance with several applicable laws and regulations. To assist in understanding these processes, VA would like to take this opportunity to clarify the term “consultation”, which appears in several of these laws and regulations. With respect to the proposal to reconfigure the Black Hills Health Care System, there are two distinct, yet interrelated, sets of consultations.

National Historic Preservation Act Consultation

The regulations implementing Section 106 of the National Historic Preservation Act (NHPA) discuss “consultation” as the process “to identify historic properties potentially affected by the undertaking, assess its effects and seek ways to avoid, minimize or mitigate any adverse effects on historic properties.” This consultation process focuses exclusively on effects to historic properties. NHPA recognizes the government-to-government relationship between the Federal government and the tribes.
Notice of VA Tribal Consultation ~ Black Hills Health Care System

Since a key component of this BHHCS proposal involves the VA Hot Springs campus, which is designated as a National Historic Landmark, VA is following the "substitution" process described in the handbook issued jointly by the Council on Environmental Quality and the Advisory Council on Historic Preservation for integrating NEPA and NHPA Section 106 (dated March 2013). This substitution does not lessen any of the NHPA requirements, rather, it provides a more integrated and streamlined mechanism to accomplish the same.

Tribal Consultation

Consultation, as prescribed by Executive Order 13175 and by VA Directive 8603, covers a much broader range of potential tribal concerns and/or issues with respect to the proposed Federal action than just historic preservation. These consultation topics and scope extend well beyond the historical aspects of a particular facility or location. Formal tribal consultation in this sense is a documented process in which input is sought from tribal officials on proposed VA actions which may: (1) require tribal and VA senior leadership involvement; (2) involve the potential for widespread, direct and substantial impact upon more than one tribe or on the relationship between VA and tribes; (3) affect tribal resources, rights, or land; (4) entail policy, legislative, or legal actions involving tribes; or (5) change the distribution of authority and responsibilities between VA and Indian tribes.

Participation in the Section 106 Process for Historic Properties

If you indicate an interest in the NHPA Section 106 consultation process, you will be provided additional details about the relevant schedule and milestones in future correspondence. Please recognize the focus of the Section 106 consultations is limited to evaluation of the potential adverse effects to the Hot Springs campus and other historic properties that may be identified. Please notify the VA of your interest in the Section 106 process by referencing this letter and identifying your selected point of contact for Section 106 coordination, by either an email to vablackhillsfuture@va.gov, or a letter to Staff Assistant to the Director, VA Black Hills Health Care System, 113 Comanche Road, Fort Meade, SD 57741. We welcome your interest and would appreciate receiving your response within 15 days of your receipt of this letter.

Participation in Tribal Consultation Pursuant to Executive Order 13175

VA is preparing to initiate formal Tribal Consultation this summer as well, possibly as soon as late August or early September. To prepare for these efforts, VA is requesting input from tribes located in South Dakota, North Dakota, Montana, Wyoming, Minnesota, Oklahoma, and Nebraska. The input would be focused on primary topics of concern to the affected tribes and would help craft the agenda, identify venues, and ensure that key VA leadership and personnel attend.
Notice of VA Tribal Consultation ~ Black Hills Health Care System

We very much look forward to your input. Based upon the communications to date, VA anticipates Tribal Consultation subjects of interest to include, but not be limited to, the following:

- Tribal government concerns specific to the Hot Springs campus itself;
- Potential for Tribal government interest in the use or actual acquisition of part or all (with some exceptions) of the Hot Springs campus, if the decision to vacate some or all is reached;
- Specific concerns surrounding access, timeliness, and quality of medical care to American Indian Veterans through facilities on or near reservations;
- Other mechanisms for provision of medical care to American Indian Veterans;
- Any effect on other Veterans benefits and services available to American Indian Veterans (for example, through VA’s Veterans Benefits Administration or VA’s National Cemetery Administration) as a result of the proposal.

In order to properly prepare for the upcoming Tribal Consultation under Executive Order 13175, please provide your comments and requests by September 12, 2014. Comments and requests may be sent electronically to tribalgovernmentconsultation@va.gov, by fax (202) 273-5716 or mail: Department of Veterans Affairs, Office of Tribal Government Relations, 810 Vermont Ave. NW Suite 915e, Washington, DC 20420.

VA recognizes the value of dialogue and importance of communication with American Indian tribes and looks forward to receiving your input. If you have any questions regarding this communication you may contact Peter Vicaire, Office of Tribal Government Relations Specialist, Central Region at (651) 405-5676 or Peter.Vicaire@va.gov.

Sincerely,

Josh Taylor
Acting Assistant Secretary
Office of Public and Intergovernmental Affairs

VA’s Supportive Services for Veterans Families (SSVF) Grant Awardee List Released

Under the SSVF program, VA awards grants to private non-profit organizations and consumer cooperatives that can provide supportive services to very low-income Veteran families living in or transitioning to permanent housing. You can find out more about the program and see the full list of grantees by visiting the website: http://www.va.gov/homeless/ssvf.asp
Native America Calling: Native Veterans Issues

This radio show was recorded on Monday, August 25, 2014. This veterans segment begins at 6:01 of the program, which is 51:10 and can be found HERE.

"The Department of Veterans Affairs has seen a lot of change recently. Not only does the department have a new leader but more reforms are ahead at the national level. What do all of these changes mean for Native American and Alaska Native veterans and their families? Will you take advantage of the option to seek outside care if you’re far from a VA facility? Do you think VA reforms will be a good thing for you or a veteran in your life? If you have ideas for improving care for our Native veterans, we also want to hear from you during our conversation about changes in Veterans Affairs. " Here’s the link: http://www.nativeamericacalling.com/ram/2014/aug/082114.m3u

House of Representatives Veterans Legislation Update

HR 3230, Veterans’ Access to Care through Choice, Accountability, and Transparency Act of 2014
This bill was signed by President Obama on August 7. You can follow the history of this bill as well as read the text here: https://www.govtrack.us/congress/bills/113/hr3230

HR 4234, Ensuring Veterans’ Resiliency Act
This bill would direct the Secretary of Veterans Affairs to carry out a pilot program to reduce the shortage of psychiatrists in the Veterans Health Administration of the Department of Veterans Affairs by offering competitive employment incentives to certain psychiatrists, and for other purposes. The full bill can be found here: https://www.govtrack.us/congress/bills/113/hr4234/text

HR 5088, Responsive and Efficient Appeals Courts for Heroes Act of 2014
To amend title 38, United States Code, to establish procedures for class actions at the Court of Appeals for Veterans Claims, and for other purposes. The full bill can be found here: https://www.govtrack.us/congress/bills/113/hr5088/text

HR 4682, Veterans TriCare Choice Act
This bill would provide for coordination between the TRICARE program and eligibility for making contributions to a health savings account. The full bill can be found here: https://www.govtrack.us/congress/bills/113/hr4682/text
“Where God Likes to Be” Documentary

“Where God Likes To Be” portrays what it means to be Native American today – taking a personal, cinematic and lyrical journey into the heart of the Blackfeet Indian reservation. The film follows three young protagonists, Andi Running Wolf, Edward Tailfeathers and Douglas Fitzgerald over the course of one summer. “Where God Likes To Be” breaks down stereotypes and transforms conventional views of the reservation showing it as the spectacular home of a great and openhearted group of people who do their best to survive in and identify with a country that has tried to strip them of their identity. Here’s a [link to a preview] [1:59].

3rd Annual
SMVF Resource Speed Sharing
(Service Members, Veterans & Families)

Friday, September 26th, 2014
Crossings Community Center (not the church location)
2208 W Hefner Road, Oklahoma City
9:00-12:00pm

A half-day event inviting resources across Oklahoma to participate and share information about their organization specific to assistance for Oklahoma Service Members, Veterans, and Families offered at NO COST!

- Interested participants will be given 3 minutes to share what their organization has to offer SMVF.
- All registrants will also be provided a resource table for networking following the sharing.
- A resource list with contact information of all in attendance will be distributed.

Registration form is provided for those who want to secure a slot early!

Hosted by Veterans’ Families United, Oklahoma Military Behavioral Health Alliance, & Crossings Community Center.

Indian Health Service loses California Area leader

The Indian Health Service (IHS) is saddened to announce the passing of Margo D. Kerrigan, M.P.H., the IHS California Area director. Ms. Kerrigan, a member of the White Earth (Mississippi) Band of the Minnesota Chippewa Tribe, was a respected and dedicated leader and advocate for American Indian and Alaska Native people.

"We are grateful for the lifelong service Ms. Kerrigan dedicated to improving the health and wellbeing of American Indian and Alaska Native people," said Dr. Yvette Roubideaux, acting IHS director. "Although we have lost a cherished member of the IHS family, we remain thankful for Ms. Kerrigan's contributions to bettering the health and lives of American Indian and Alaska Native people."

Ms. Kerrigan's career with the IHS began in 1979, when she worked for the California Area Office of Program Operations. She also served in the IHS Phoenix and Nashville Areas, and from 1989 to 1996, she served as director of the Division of Management Policy, Office of Administration and Management, at IHS Headquarters in Rockville, Maryland.

In September 1996, Ms. Kerrigan assumed responsibilities as the director of the California Area. During her leadership, Ms. Kerrigan managed a unique health care program provided entirely through contracts in accordance with the Indian Self-Determination and Education Assistance Act. In the California Area, her leadership helped to provide health care to 103 tribal communities through 26 rural health care operating units, seven urban health programs, and 14 alcohol treatment programs.

Ms. Kerrigan was a strong advocate for the Government Performance and Results Act and led the agency's support team for national GPRA performance reporting and inclusion in the annual IHS budget request. She partnered with and supported the California Area tribal health programs in co-sponsoring annual conferences and
training for tribal health care providers, and established numerous Web portals to bring subject matter experts to exchange best practice information to the many tribal programs. She worked tirelessly with the Area tribes and IHS staff on funding for the much anticipated Southern and Northern California Youth Regional Treatment Centers, the first federal health care facilities to be constructed in the state. She looked forward to the completion and opening of these long-awaited facilities.

Ms. Kerrigan held a Bachelor of Arts degree in Human Biology from Stanford University and a Master of Public Health degree from the University of California, Berkeley. She was actively involved in the American Public Health Association (APHA) and was the first American Indian to serve on the executive board in its 120-year history. She also founded APHA's American Indian and Alaska Native Caucus.

In 1993, she received the Public Health Service Special Recognition Award for outstanding contributions to the management control systems of the IHS. In 1997, she was recognized by Vice President Al Gore's National Performance Review Committee for her contributions to the U.S. Department of Health and Human Services Internal Regulations workgroup. She was inducted into the Stanford University's Alumni Hall of Fame for her contributions in public service to Indian people. In FY 2002, Ms. Kerrigan was selected as a recipient of the Presidential Rank Award.

**Native Women & Wellness Reunion Gathering ~ Chandler, Arizona ~ September 23, 2014**

It has been twenty-five years since the first Women & Wellness Gathering. Since that time, a whole new generation of women has become mothers, heads of households, tribal council leaders, program directors, nurturers of tribal culture and spirituality, and more. This gathering is a time to reunite as strong healthy Native women for three full days to restart your self-care of mind, body, and spirit. Come join the sisterhood of forgiveness, courage, vulnerability, and self-compassion. We would like to offer a special invitation to all young Native women to this amazing reunion gathering. Please join us to interact with those who have blazed the trail for you, learn from their wisdom and compassion, and show them what great leaders you are now and will be in the future.

**When:** Tuesday September 23, 2014 -to- Thursday September 25, 2014  
**Where:** Wild Horse Pass Resort & Casino, 5040 Wild Horse Pass Blvd.  
Chandler, AZ 85226

"After a ten year wait, veterans in Devils Lake now have VA healthcare in their home town. Monday [August 18] marked the ribbon cutting ceremony for the brand new Devils Lake VA clinic.

There was a sense of excitement in the air, along with relief to finally see the clinic open after a decade of planning. North Dakota’s congressional delegation was on hand, along with the chairman of the Spirit Lake tribe, and officials from the Fargo VA. The new clinic will be open daily from eight until noon at Mercy Hospital in Devils Lake, offering tele-health linkups with doctors at the Fargo VA. There will also be a full time nursing staff in Devils Lake. The clinic project suffered through numerous stops and starts since it was first announced in 2004. Local veterans were skeptical that the clinic would ever be built. They say Monday's celebration was a long time coming. Veterans Service Officer Stacey Twete said, "It’s been 10 years in the making. A lot of struggles. A lot of frustrations, and today's the day. We've got tents. We've got a big crowd coming, and it's finally here." Officials say the clinic is especially important for rural veterans, who otherwise have to travel to Fargo for VA care. The clinic will officially open and start seeing veterans Tuesday morning.”
Military/Veterans Culture Training

Military Culture Schedule of Classes
September 2014
The Psychology of Service in the Military and National Guard

Goal – To provide local and regional training to civilian care providers on military culture

Objective – To help civilian care providers build rapport with service members, veterans, and their family members

Training in September 2014:

0900-1000  Module 1 – Guard 101: Organization, Structure, & Function

In this module we will discuss how the National Guard function and how it is part of the US military. Topics include Army and Air Guard, unit locations, and personnel organization of soldiers and airmen.

1110-1630 Module 2 – Enculturation: Learning the Military System

In this module we will discuss many of the variables that mold us as service members, such as military values, military courtesies, schools, leadership training, awards, duty status, and our medical and non-medical systems of training and care provision.

San Carlos Apache Tribe to Open Veterans Cemetery

Please note – the “Advance Notice” letter below was not yet signed by Secretary McDonald when this newsletter was sent out.

Mr. Terry Rambler
Tribal Chairman
San Carlos Apache Tribe
P.O. Box 1240
San Carlos, AZ 85550

Dear Mr. Rambler:

I am pleased to inform you that the Department of Veterans Affairs (VA) is awarding a grant in the amount of $1,683,863 for 100 percent of allowable costs for the establishment of the San Carlos Apache Tribe Veterans Cemetery in Peridot, Arizona (FAI: AZ-13-10). The San Carlos Apache Tribe submitted a formal Application for Federal Assistance for the project on August 6, 2014.

This grant will fund the construction of a main entrance, a maintenance facility, roads, an assembly area, grave marker beam support system, memorial wall, landscaping, a memorial walkway, and supporting infrastructure. The project will develop approximately 3 acres. The construction will include 330 full casket burial sites. This project will serve approximately 626 San Carlos Apache Veterans and their families.

The closest national cemetery is VA’s National Memorial Cemetery of Arizona in Phoenix, Arizona, which is approximately 107 miles away. The closest state cemetery is Monte Calvario Veterans Cemetery in Tucson, Arizona, which is approximately 114 miles away.

The Memorandum of Agreement is being sent to you under separate cover.

Sincerely,

Robert A. McDonald
